24

25

Hewlett-Packard.

MR. BRAUTIGAM: Objection.

A. The kind of situation you saw in

what we saw in the second restatement was that

'94, '95, and '96 were lumped together pretty

23

24

25

much.

22

23

24

25

MR. BURKE: You can take a look at

that. I am going to take a short break

while you do that.

THE WITNESS: OK.

(A recess was taken.)

#### Page 98 Page 100 Preston Preston 2 So that taken as a whole they were 2 BY MR. BURKE: at least materially misstated. I don't think 3 3 Q. I think when we went off the record companies restate what they don't have to. 4 4 we were talking about the first restatement 5 Q. My question is is that -- ! 5 and you wanted to review it to address a 6 understand that in the aggregate a restatement 6 particular point. 7 may be material. 7 A. Correct. 8 8 My question is are you opining, have Q. OK. you analyzed whether or not the fact of the 9 A. What I had said was the earnings 9 restatement that was announced in March in restatement necessarily makes every single 10 10 fact was, um, had it been announced earlier in year to which it relates materially misstated? 11 11 MR. BRAUTIGAM: Objection. 12 1999 at the time of the proxy or what could 12 have been announced at that point would have 13 When I looked at the restatement, 13 14 and I think if you look at page 21 of my 14 had a negative impact. And it would have had report, or you can look at page 20, but in a negative impact because this earnings 15 15 either case what I'm looking at are numbers 16 announcement announces this change in 16 that are for the time period we're considering 17 accounting which has negative impact going 17 forward. This was done in March 5th of 2003. materially misstated. 18 18 "The Previous" - and I'm quoting 19 Q. 1999, the numbers for 1999 are 19 from now the announcement. "The previously 20 four-year numbers, correct? 20 announced earnings per share outlook for 2003 21 A. Yes. 21 22 Q. And we previously talked about how 22 was between \$2.50 and \$2.70. As a result of the evaluation of the estimated impact of the 23 you have not calculated how these numbers 23 auto lease financing transactions, the revised would flow into or impact the three-month or 24 24 25 earnings per share outlook is between \$2.30 25 six-month numbers, correct? Page 99 Page 101 Preston Preston 1 1 and \$2.50." A. No. What I have said is that 2 2 forecasts are predicated on this method of So a decline for 2003. 3 3 4 accounting, and in fact, the company 4 "The company's expectation is that acknowledged as much when it made its 5 5 the impact of this matter will be announcement regarding this restatement and significantly less in 2004 and in future 6 6 years," but still negative. I added the "but 7 said, As a result of this restatement, by the 7 still negative." It's not there. 8 8 way, our earnings are going down in the 9 future. 9 However, if one looks at the market 10 reaction to it and commentary on it, some of 10 So that whether these were 11 which is also included in my paper, and I 11 recorded -would refer you to page 26, Professor Min Wu 12 Q. Which restatement are you talking 12 says, "Earnings restatements rewrite a 13 about? 13 A. The first restatement. This would company's history, generally in an 14 14 unflattering way. When companies restate affect our earnings in the future. 15 15 Q. Your testimony is that the first earnings and particularly when that's 16 16 accompanied by a warning about future earnings restatement indicated that the earnings in the 17 17 - as was the case with Provident - there are future would go down? 18 18 A. Let's look at the first restatement. 19 usually reverberations." 19 Q. OK. 20 This was not a benign, Oh, this 20

isn't going to change anything. This changes

or the way the market perceived them doing

Q. Are you familiar with any of these

the fundamental way they were doing business

21

22

23

24

25

business.

way I think of a data entry problem, data

#### Page 102 Page 104 1 Preston Preston 1 individuals who are quoted on page 26? 2 entry problems don't cause continued problems. 3 A. Min Wu? 3 This is something the company says is going to 4 Q. Yes. 4 cause continued problems. 5 A. A very respected, highly regarded 5 So they're going to correct it, but 6 academic, yes. 6 whatever exactly which I don't see revealed 7 Q. Do you know whether or not any of was exactly the cause of this overstatement of 7 8 these individuals followed or were earnings is going to cause earnings now that 8 knowledgeable about Provident or its business? 9 9 we've got that correction made to be lower than you thought they were going to be in the 10 A. Well, for example, let's look at Bob 10 Nameri there. He manages \$62 billion, which future too. 11 11 included Provident shares. 12 12 So this isn't, Oh, I put a wrong 13 I would say that anybody who is 13 number in. This is this caused us to have to managing that kind of money with their shares reevaluate what our earning stream is going to 14 14 probably was quite familiar. I have not 15 15 16 spoken with him directly obviously. 16 Q. And your testimony is you don't know 17 Q. That's my question. 17 the source of those incorrect entries; is that Are any of these analysts' 18 18 right? Or why it was recurring? 19 statements admissions or statements on behalf 19 MR. BRAUTIGAM: Objection. 20 20 of the company? A. My testimony is that it was nine 21 MR. BRAUTIGAM: Objection. 21 securitizations, and that what they said was 22 22 that, and then here again, we can just look at Q. These are outside observers, 23 23 the report and exactly what they said about correct? 24 MR. BRAUTIGAM: Objection. 24 25 A. These are people who read the 25 The restatement of previously 38 Page 103 Page 105 1 Preston Preston 2 company's statement, which says, by the way, 2 reported operating results is attributable to 3 it's going to lower earnings this year and it errors in the accounting for nine auto lease 4 will lower them in the future. 4 financing transactions originated between 1997 Q. And do you know whether or not the and 1999. But that is a systematic error. 5 5 It's not a this occurred once. We have got to 6 lowering of earnings related to the accounting 6 7 entries or the accounting theory --7 go back and relook at the whole stream of MR. BRAUTIGAM: Objection. income and its effect. 8 8 Q. -- that was related in, that was 9 9 And you can see that those nine auto 10 involved in the first restatement? 10 leases originated in 1999, up from 1997 MR. BRAUTIGAM: Objection. through '99, had much greater effects going on 11 11 12 A. I would say that if you're trying to 12 forward. So that this was not just like, Oh, 13 contrast theory with entries, that the second this just happened once. This was not a 13 14 restatement was more theory and the first was 14 one-time kind of we're going to correct this 15 more entry. 15 error if we had - it had implications for years out. 16 I would say it was also a little -16 Q. Were you aware that it was a data 17 one would think it was a systematic entry 17 problem. It wasn't certainly a 18 entry error in a model that was used to 18 straightforward entry problem. It went, as 19 estimate income and expense? 19 MR. BRAUTIGAM: Objection. 20 one of these people says, something goes 20 21 undetected for six years. That has to be 21 Q. Estimated over the life of the 22 reconciled with the cash flow statement is -22 transactions? 23 certainly strains credibility. 23 MR. BRAUTIGAM: Objection. 24 But if it was an entry problem the

24

25

A. I'm sure that's likely.

Q. OK. Did you read in the course of

	Page 106		Page 108
1	Preston	1	Preston
2	your work the PricewaterhouseCoopers report	2	effect in 2003 of loans that were originated
3	that talks about their investigation of what	3	in '97 through '99.
4	happened?	4	Q. But my point is this. You
5	A. I don't believe I've seen it.	5	understand from your review of the press
6	Q. Earlier you talked about the section	6	release that the adjustment reported in March
7	in the press release that talked about a 20	7	of '03 was a cumulative adjustment that
8	percent reduction in earnings estimates for	l á	<del>-</del>
9	2003.	9	increased over time, do you not?  A. I think you can look at my report on
10	A. 20 cents, I believed, not 20	10	
11	percent.	11	page 20 or you can look at the company's
12	•	12	numbers, but you can see that the earnings are
13	Q. Did I say 20 percent? I misspoke.	13	restated every year. So that the restatement
	I meant to say 20 cents.  A. Right.		for 2003 or the change in 2003 is 20 cents.
14	_	14	It's 20 cents if you - the change - the
15	Q. Do you know how much of that 20 cent	15	projection would be 20 cents different back in
16	reduction would have occurred had this been	16	1999 for 2003.
17	discovered in 1999 prior to the OHSL Provident	17	Q. How did you calculate that or did
18	merger?	18	you calculate that?
19	MR. BRAUTIGAM: Objection.	19	MR. BRAUTIGAM: Objection.
20	Q. How would that number have compared?	20	A. That is straightforward logic.
21	MR. BRAUTIGAM: Objection.	21	Q. You didn't see any of the materials
22	A. Well, if they discovered it they	22	that McDonald relied upon including any
23	would have had different projections. So how	23	projections or forecasts, correct?
24	would that number have compared in 2003?	24	A. Just that they said they had them,
25	Q. No, in 1999.	25	yes.

Q. And you believe that investment professionals' and financial analysts' reliance upon the CEO or CFO would be analogous to the position of the OHSL shareholders; is that correct?

MR. BRAUTIGAM: Objection. Could you read that question back, please.

(A portion of the record was read.)

A. I think the investment professionals and financial analysts often are stockholders to begin with.

But more than that, I think that this is a representative study that shows that there are such people who -- it's a quantification of something that is frankly pretty obvious.

I mean, it is highly, would be highly unusual for a junior accountant to address the annual meeting on the financial state of the company. It would be highly unlikely for the secretary in the shipping department to address, um, to write a letter to the background in the proxy statement.

## Preston

Q. Down later on page 11, in the middle of that paragraph, paragraph 27, you state "My analysis of the historical trading data for OHSL common stock indicates that the shares did not turn over quickly relative to the total number of shares outstanding. This suggests that many of its investors were committed, long-term owners of the stock."

Is there any other possibility that would have explained the lack of trading?

A. Yes. Trading is subject to supply and demand. And therefore at the right price, you know, if somebody had offered them a hundred dollars a share, there might have been more trading. But given that there wasn't, they obviously held their shares longer than is customary.

Q. Are you aware that the evidence is that the market for OHSL stock was very illiquid?

MR. BRAUTIGAM: Objection.

A. Explain to me what evidence you're talking about.

Q. Are you familiar with Mr. Thiemann's

Page 115

### Preston

These people are generally expected by the investment community, being investors, being the -- whether they're investment professionals or whether they're you and I or financial analysts, you expect the knowledgeable people to do the conveying of the information. And in fact, that's what's happened in this company.

- Q. Were there any investment professionals or financial analysts that were tracking OHSL?
  - A. McDonald's was I believe.
- Q. Anyone else that you can think of?
- A. Not offhand. The analyst reports that I have are in this package. 16
  - Q. Did you obtain in the course of your work any understanding of the type of neighborhood or area Oak Hills is?

MR. BRAUTIGAM: Objection.

21 Q. Do you understand what I'm asking 22 you? Is it Brooklyn or Westchester County? 23 Any sense of that?

MR. BRAUTIGAM: Objection.

A. I don't.

Preston

testimony about the liquidity of the stock or the analysis in the proxy statement of the 4 liquidity of the OHSL stock?

- A. Yeah, I've looked at the trading data and I've looked at the price movement in the stock relative to it, as I think it - it was liquid enough to be efficient.
  - Q. And what's the basis for that?
- A. Well, it reacts to information.
- Q. The next sentence indicates "the stock was not actively followed by securities analysts." That's correct?
  - A. Yes.
- Q. The next statement about "Mr. Hanauer was a visible member of the community," what's your basis for that?
- A. I think it's testimony. I'm trying to remember whose. Certainly the fact that he had been affiliated with the bank for twenty years. I live in a small community. We have a small community bank. The people who are affiliated with it are known throughout the community.
- Q. What bank is that?

an S&L without overwhelming them with information they are unable to understand?

MR. BRAUTIGAM: Objection.

Q. Do you understand what I'm asking?

A. How do you describe what loan securitization is and how dangerous it is? I don't think you have to have a geologist define a cliff to know that if you fall off a thousand foot cliff you can break your leg. So I think that that is not — you don't have to describe the accounting entries that need to be made.

What you do is you need to make sure that people understand what a huge percentage of your business it is, how your accounting treatment could radically change the way you're recognizing your revenue as a result of it. You could change your accounting treatment, and that would have an unfavorable impact on the way you're recognizing your income.

I think that you could let people know that it's, you know, these are — our accounting treatment is subject to change, and

## Preston

Q. Do you have any opinion one way or the other on whether or not the percentage of income or the extent of the securitizations as it affected Provident's financial statements were disclosed in other periodic filings other than the proxy statement?

## A. I believe they were.

Q. The next several pages from pages 20 through twenty -- beginning at the top of page 25 deal with the Provident earnings and the impact of the restatement:

### A. Right.

Q. We talked a little bit about the chart at the bottom of page 20 already.

### A. Yes.

Q. And I think we have already talked about what the impact for the interim financials in 1999 would or would not have been, correct?

A. We talked about what they would or would not have been and what the -- knowing that this kind of accounting was in use and its impact if it were changed, how that would have changed people's projections.

Page 140 Page 138 Preston Preston 2 Q. OK. In paragraph 42, in the middle 2 forecasts and prospects of the respective 3 companies as well as other matters we believed 3 of that paragraph, the sentence begins 4 "After"? 4 relevant." A. Yes. 5 5 Then I think if you go to the 6 Q. And you referred to in the next 6 following page, in the paragraph under ix, 7 line, "the fact that Provident's reported 7 halfway through that paragraph, beginning at 8 earnings and projections were relied upon, at 8 the left-hand side of the page, "with respect 9 the time, by McDonald, in arriving at its 9 to financial forecasts used in our analysis we fairness opinion," OK? 10 have assumed that such forecasts have been 10 A. Yes. 11 reasonably prepared by management of OHSL and 11 PFGI as the case may be on a basis reflecting 12 Q. We talked about earnings. Do you 12 have any knowledge of what, if any, the best currently available estimates and 13 13 14 projections were relied upon by McDonald or 14 judgments of management of OHSL and PFGI as to what they showed? Projections of what? the future performance of OHSL, PFGI and OHSL 15 15 16 MR. BRAUTIGAM: Objection. 16 and PFGI combined as the case may be." A. I think if we look at I think it's 17 So based on this statement I would 17 Annex C of the proxy we can read exactly what say they had reviewed forecasts prepared by 18 18 management of Provident for their use. 19 McDonald said. 19 20 Q. This is a document previously Q. But you don't know what the 20 marked, we're not going to bother with this 21 forecasts related to, correct? 21 for purposes of today, as Defendant's 22 MR. BRAUTIGAM: Objection. 22 A. I think they related to Provident. 23 Exhibit 1. And I will attempt to direct your 23 At least Provident. And probably it was attention. Is that the document you referred 24 24 Provident that prepared those that were for 25 to? Page 139 Page 141 Preston Preston A. It is. the Provident/OHSL combination. 2 2 3 (Pause to correct technical 3 Q. Forecasts of what? 4 difficulty.) 4 A. Relevant financial information. 5 A. (Continuing) In terms of what 5 Q. But you don't know what relevant McDonald's relied upon from Provident, financial information was contained on the 6 7 Q. Right. 7 forecast, right? A. -- they reviewed the historic 8 8 A. I think we can assume that 9 information that was contained in their annual 9 McDonald's did a reasonable job here. I reports and 10-Ks, Qs. They reviewed certain haven't heard anyone say that they did not do 10 10 other public and nonpublic information. a typical job. If it was interest earned, 11 11 primarily financial in nature, relating to that would definitely be what we're talking 12 12 their respective businesses, earnings, assets 13 13 about here. If it was revenues booked, that and prospects of OHSL and PFGI provided to us would be what we're talking about here. 14 14 or publicly available. I have no reason to believe that 15 15 16 That's little iii. they didn't have adequate information, which 16 17 Q. And prospects is what you're they say they believe they had. 17 Q. I understand that, but you just 18 referring to? 18 19 A. Prospects there. 19 don't know what they did or what they looked 20 In iv, prepared in meetings and 20 at, correct? telephone conferences with - I'm sorry, MR. BRAUTIGAM: Objection. 21 21 "participated in meetings and telephone 22 22 Q. We don't have a copy of what they

looked at, do we?

MR. BRAUTIGAM: Objection.

A. We don't with precision have any

conferences with members of senior management

of OHSL and PFGI concerning the financial

condition, business, assets, financial

23

was not accurate, they had an obligation to disclose that.

Q. What is the basis for your conclusion that as a result of the information you're talking about here, MacDonald's would have not rendered its fairness opinion or would have changed its fairness opinion?

A. What line are you on? I'm sorry.

Q. Maybe I -- let me ask you that differently. Is it your testimony that the information and the financial data that

17

18

19

20

21

22

23 information and the financial data that you
 24 have summarized in this section of your report

25 would have caused McDonald's not to render its

A. Well, let's do that, because it talks about the fact that this short time later, six weeks, they are revising their numbers again, restating them, as a result of a review by PWC, who came in and determined that their accounting, they were accounting for transactions as, um —

Q. Direct finance leases?

 A. Thank you. Direct finance leases, that should have been accounted for as operating leases.

Q. Is that a concept, that accounting

Do you recall why?  A. I think it had to do with the insurance of the, um, and the way the insurance kicked in and the residual value.  Q. Do you recall that subsequent to the Provident second announcement on April 15th that the SEC merging issues task force came out with a pronouncement relating to those kinds of insurance policies?  A. I don't recall that.  Q. Do you recall anything along the lines that other banks had similar issues as	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	Preston  A. I would say the total story was not out until then, that's true.  Q. What happened to the Provident stock price after the April 15, 2003 announcement?  A. I don't think there was a statistically significant movement.  Q. Did it go up or did it go down?  A. I think it went up a few cents.  Q. How about in the days and weeks following the April 15, 2003 announcement?  A. I have a graph of the price. You can look at it if you want.  Q. That's fine. If you would like to look at that, that's fine.  A. Here we go. This is the graph and the supporting data on things.  OK, here we are, April 15th, 2003.  See this? This is March. This is the bank index up here. This is March.  Q. Right.  A. You can see following March Provident pretty much then generally goes up some, right?
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	Preston  A. Well, wasn't it kind of the other way? You had to account for them as operating leases and therefore we had to restate these previous years?  Q. My question is, at the end of the day on April 15th, do you recall that they were characterized as operating leases as opposed to direct finance leases?  A. Going forward.  Q. Yes.  A. Yes.  Q. Do you recall why?  A. I think it had to do with the insurance of the, um, and the way the insurance kicked in and the residual value.  Q. Do you recall that subsequent to the Provident second announcement on April 15th that the SEC merging issues task force came out with a pronouncement relating to those kinds of insurance policies?  A. I don't recall that.  Q. Do you recall anything along the	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	Preston  A. I would say the total story was not out until then, that's true.  Q. What happened to the Provident stock price after the April 15, 2003 announcement?  A. I don't think there was a statistically significant movement.  Q. Did it go up or did it go down?  A. I think it went up a few cents.  Q. How about in the days and weeks following the April 15, 2003 announcement?  A. I have a graph of the price. You can look at it if you want.  Q. That's fine. - 23 Q. By how much?
- A. Well, let's look at the earnings 24 restatements, which are - and we'll just talk

going to be booked in the same improper manner and that was included in projections, then the fact that they were, that you were relying on

25 those to determine what the future value of

Page 159

Preston about the March 5th.

Q. OK.

A. And if you see '97 you're off a couple of cents. '98 you're off four cents. '99 you're off 23 cents. It gets bigger. It's 31 cents, then 40 and then 39, roughly the same. So way off. You know, it's very large numbers.

Q. Then again, as we talked about, the only numbers available to the OHSL shareholders would have been '97, '98 and partially your numbers for '99.

A. Historic numbers, but not the only projections.

 Q. What projections were provided in the proxy statement to OHSL shareholders?

A. I'm not aware of projections in the proxy statement.

Q. Page 22, second to last line, to give you context, you state in the fourth line from the bottom, "It is my opinion that had Provident restated its earnings for 1997, 1998 and the first half of 1999, at the time the Proxy was issued, it would have significantly

Preston

the company would be, would be - they would be wrong. Then therefore the basis is wrong.

So how do you decide what is material? You look at the numbers. You look what impacts it. You say what am I going to do and how am I going to do it.

- Q. Your question referred to projections again. And no projections were given to the OHSL shareholders, correct?
  - A. Not in the proxy statement.
- Do you know the source of the phrase "significantly altered the total mix of information," where that comes from?
  - A. Not off the top of my head, no.
- Q. Is that your language or did someone give that to you?

A. It's certainly language I've used many times. So I don't know whether someone gave it to me, whether it came from a decision at some point. I don't recall.

Q. Fair enough.

Paragraph 47, page 23. You state that "In addition, to the extent McDonald relied upon Provident's historic financials

Page 161

No. Right here in the body of the report you can pretty much — you can see on page 21, for example, that if one were to divide net income reported in '99 by 308, by the — I'm sorry, I will wait until you get there. Q. I got you.	3 4 5 6 7 8 9 10 11 12 13 14	"A change in the value of Provident's stock at the time of the Merger would have, in all likelihood, necessitated a revision to the recommended Exchange Ratio of Provident shares for each OHSL share."  What do you mean by that?  A. Well, I think I provide a table here of what would have happened if, depending.  Someplace in this report there's a table that shows what happens when the stock price of Provident changes.  Q. Page 29.
4 5 6 7 8 9 10 11 12 13 14 15	A. I think these numbers are right in my table.  Q. Which table are we referring to? The one at the end, Exhibit F?  A. No. Right here in the body of the report you can pretty much — you can see on page 21, for example, that if one were to divide net income reported in '99 by 308, by the — I'm sorry, I will wait until you get there.  Q. I got you.  A. You divide 308 by the 248 in 1999,	3 4 5 6 7 8 9 10 11 12 13 14 15	"A change in the value of Provident's stock at the time of the Merger would have, in all likelihood, necessitated a revision to the recommended Exchange Ratio of Provident shares for each OHSL share."  What do you mean by that?  A. Well, I think I provide a table here of what would have happened if, depending.  Someplace in this report there's a table that shows what happens when the stock price of Provident changes.  Q. Page 29.  A. That's correct.
4 5 6 7 8 9 10 11 12 13 14 15 16	A. I think these numbers are right in my table.  Q. Which table are we referring to? The one at the end, Exhibit F?  A. No. Right here in the body of the report you can pretty much — you can see on page 21, for example, that if one were to divide net income reported in '99 by 308, by the — I'm sorry, I will wait until you get there.  Q. I got you.  A. You divide 308 by the 248 in 1999, in 1998 that is 24 percent approximately. Or	3 4 5 6 7 8 9 10 11 12 13 14 15 16	"A change in the value of Provident's stock at the time of the Merger would have, in all likelihood, necessitated a revision to the recommended Exchange Ratio of Provident shares for each OHSL share."  What do you mean by that?  A. Well, I think I provide a table here of what would have happened if, depending.  Someplace in this report there's a table that shows what happens when the stock price of Provident changes.  Q. Page 29.  A. That's correct.  Q. OK.
4 5 6 7 8 9 10 11 12 13 14 15 16 17	A. I think these numbers are right in my table.  Q. Which table are we referring to? The one at the end, Exhibit F?  A. No. Right here in the body of the report you can pretty much – you can see on page 21, for example, that if one were to divide net income reported in '99 by 308, by the – I'm sorry, I will wait until you get there.  Q. I got you.  A. You divide 308 by the 248 in 1999, in 1998 that is 24 percent approximately. Or if you go down and instead divide – I'm	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	"A change in the value of Provident's stock at the time of the Merger would have, in all likelihood, necessitated a revision to the recommended Exchange Ratio of Provident shares for each OHSL share."  What do you mean by that?  A. Well, I think I provide a table here of what would have happened if, depending.  Someplace in this report there's a table that shows what happens when the stock price of Provident changes.  Q. Page 29.  A. That's correct. Q. OK. A. So we see that if the Provident
4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	A. I think these numbers are right in my table.  Q. Which table are we referring to? The one at the end, Exhibit F?  A. No. Right here in the body of the report you can pretty much — you can see on page 21, for example, that if one were to divide net income reported in '99 by 308, by the — I'm sorry, I will wait until you get there.  Q. I got you.  A. You divide 308 by the 248 in 1999, in 1998 that is 24 percent approximately. Or if you go down and instead divide — I'm sorry, we need to go to the other. On page	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	"A change in the value of Provident's stock at the time of the Merger would have, in all likelihood, necessitated a revision to the recommended Exchange Ratio of Provident shares for each OHSL share."  What do you mean by that?  A. Well, I think I provide a table here of what would have happened if, depending.  Someplace in this report there's a table that shows what happens when the stock price of Provident changes.  Q. Page 29.  A. That's correct. Q. OK. A. So we see that if the Provident stock price goes down 10 percent, the exchange
4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	A. I think these numbers are right in my table.  Q. Which table are we referring to? The one at the end, Exhibit F?  A. No. Right here in the body of the report you can pretty much — you can see on page 21, for example, that if one were to divide net income reported in '99 by 308, by the — I'm sorry, I will wait until you get there.  Q. I got you.  A. You divide 308 by the 248 in 1999, in 1998 that is 24 percent approximately. Or if you go down and instead divide — I'm sorry, we need to go to the other. On page 21, the restated numbers, and divide 258 by	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	"A change in the value of Provident's stock at the time of the Merger would have, in all likelihood, necessitated a revision to the recommended Exchange Ratio of Provident shares for each OHSL share."  What do you mean by that?  A. Well, I think I provide a table here of what would have happened if, depending.  Someplace in this report there's a table that shows what happens when the stock price of Provident changes.  Q. Page 29.  A. That's correct. Q. OK.  A. So we see that if the Provident stock price goes down 10 percent, the exchange ratio changes. If it goes down 15 percent,
4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	A. I think these numbers are right in my table.  Q. Which table are we referring to? The one at the end, Exhibit F?  A. No. Right here in the body of the report you can pretty much — you can see on page 21, for example, that if one were to divide net income reported in '99 by 308, by the — I'm sorry, I will wait until you get there.  Q. I got you.  A. You divide 308 by the 248 in 1999, in 1998 that is 24 percent approximately. Or if you go down and instead divide — I'm sorry, we need to go to the other. On page 21, the restated numbers, and divide 258 by 238, that's 8 percent growth. So if that's	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	"A change in the value of Provident's stock at the time of the Merger would have, in all likelihood, necessitated a revision to the recommended Exchange Ratio of Provident shares for each OHSL share."  What do you mean by that?  A. Well, I think I provide a table here of what would have happened if, depending.  Someplace in this report there's a table that shows what happens when the stock price of Provident changes.  Q. Page 29.  A. That's correct. Q. OK. A. So we see that if the Provident stock price goes down 10 percent, the exchange ratio changes. If it goes down 15 percent, there's no — that's a walkaway situation, a
4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	A. I think these numbers are right in my table.  Q. Which table are we referring to? The one at the end, Exhibit F?  A. No. Right here in the body of the report you can pretty much — you can see on page 21, for example, that if one were to divide net income reported in '99 by 308, by the — I'm sorry, I will wait until you get there.  Q. I got you.  A. You divide 308 by the 248 in 1999, in 1998 that is 24 percent approximately. Or if you go down and instead divide — I'm sorry, we need to go to the other. On page 21, the restated numbers, and divide 258 by 238, that's 8 percent growth. So if that's what you're talking about, that's	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	"A change in the value of Provident's stock at the time of the Merger would have, in all likelihood, necessitated a revision to the recommended Exchange Ratio of Provident shares for each OHSL share."  What do you mean by that?  A. Well, I think I provide a table here of what would have happened if, depending.  Someplace in this report there's a table that shows what happens when the stock price of Provident changes.  Q. Page 29.  A. That's correct. Q. OK.  A. So we see that if the Provident stock price goes down 10 percent, the exchange ratio changes. If it goes down 15 percent, there's no — that's a walkaway situation, a renegotiation situation, whatever, but the
4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	A. I think these numbers are right in my table.  Q. Which table are we referring to? The one at the end, Exhibit F?  A. No. Right here in the body of the report you can pretty much — you can see on page 21, for example, that if one were to divide net income reported in '99 by 308, by the — I'm sorry, I will wait until you get there.  Q. I got you.  A. You divide 308 by the 248 in 1999, in 1998 that is 24 percent approximately. Or if you go down and instead divide — I'm sorry, we need to go to the other. On page 21, the restated numbers, and divide 258 by 238, that's 8 percent growth. So if that's what you're talking about, that's	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	"A change in the value of Provident's stock at the time of the Merger would have, in all likelihood, necessitated a revision to the recommended Exchange Ratio of Provident shares for each OHSL share."  What do you mean by that?  A. Well, I think I provide a table here of what would have happened if, depending.  Someplace in this report there's a table that shows what happens when the stock price of Provident changes.  Q. Page 29.  A. That's correct. Q. OK.  A. So we see that if the Provident stock price goes down 10 percent, the exchange ratio changes. If it goes down 15 percent, there's no — that's a walkaway situation, a renegotiation situation, whatever, but the exchange ratio
4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	A. I think these numbers are right in my table.  Q. Which table are we referring to? The one at the end, Exhibit F?  A. No. Right here in the body of the report you can pretty much — you can see on page 21, for example, that if one were to divide net income reported in '99 by 308, by the — I'm sorry, I will wait until you get there.  Q. I got you.  A. You divide 308 by the 248 in 1999, in 1998 that is 24 percent approximately. Or if you go down and instead divide — I'm sorry, we need to go to the other. On page 21, the restated numbers, and divide 258 by 238, that's 8 percent growth. So if that's what you're talking about, that's  Q. That's where the number is coming	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	"A change in the value of Provident's stock at the time of the Merger would have, in all likelihood, necessitated a revision to the recommended Exchange Ratio of Provident shares for each OHSL share."  What do you mean by that?  A. Well, I think I provide a table here of what would have happened if, depending.  Someplace in this report there's a table that shows what happens when the stock price of Provident changes.  Q. Page 29.  A. That's correct. Q. OK.  A. So we see that if the Provident stock price goes down 10 percent, the exchange ratio changes. If it goes down 15 percent, there's no — that's a walkaway situation, a renegotiation situation, whatever, but the

25 been asked to quantify the impact on Provident

A. Yes, it's straightforward math.Q. Do you know if the reported earnings

was something that went undetected for six

years. The fact that market commentators

24

24

25

vulnerable?"

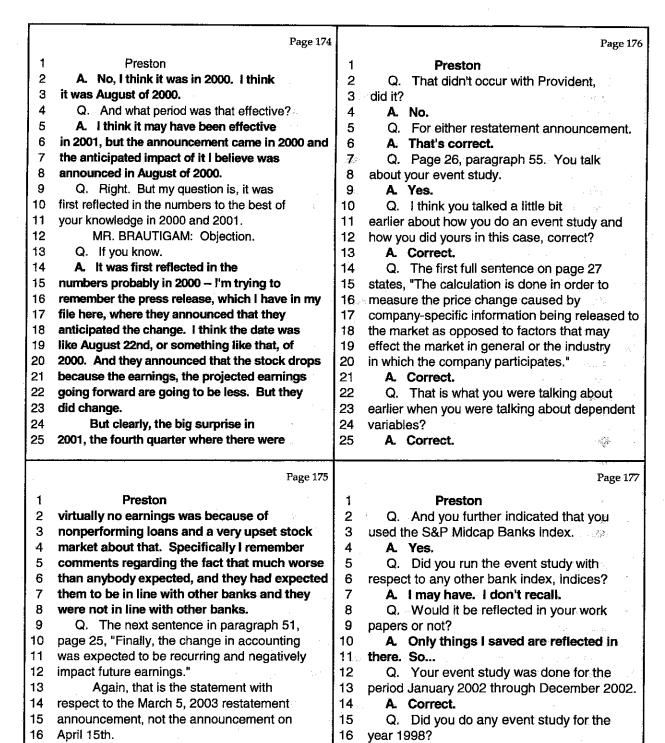

"are the company's internal controls

#### Page 170 Page 172 **Preston** Preston 2 commented on the problem with their internal 2 The net income during this time 3 controls. 3 period on a per share basis, for example, in 4 Q. The next characteristic you talk 2001, the reported was 45 cents. 40 cents 4 5 about is "will the restatement affect future 5 leaves it with net income of five cents. So 6 earnings?" 6 it's a very -- it virtually wipes it out. 7 A. Yes. 7 Q. But the other years were Q. Now, with respect to the March 5, 8 8 substantially smaller than that, correct? 9 2003, your conclusion was that at least for 9 That's the largest in fact --10 the next succeeding period it would have some 10 A. Yeah, I think that my sentence says 11 impact, correct? 11 that. It grew in significance. 12 A. And thereafter. Q. Do you know why in 2001 Provident's 12 Q. What about for the announcement on 13 13 earnings were, its net income was 14 April 15th? 14 comparatively less than it was in the other 15 A. The announcement than April 15th was 15 years on your chart? 16 that it would have impact as well. 16 A. I think in 2001 it, um, I think if Q. And would that be a positive or 17 17 we look on the stock price chart you will see 18 negative impact? 18 beginning in 2001 it had some negative 19 A. The company said that it would be 19 results, some of which were unexpected. 20 positive. 20 I remember in the third quarter 21 21 Q. Later in that paragraph 51 there was quite a bit of concern about the 22 statement, four lines up from the bottom, the fact that the results were unexpected below 22 23 sentence begins "Obviously." 23 what people expected. 24 A. Yes. 24 In the fourth quarter nonperforming 25 Q. "Obviously, intentional errors made 25 assets and problems with loans caused the, um, Page 171 Page 173 Preston 1 Preston by dishonest managers are the most egregious 2 I don't know. If there were no earnings in and have the largest negative impact on stock the fourth quarter, there were almost no 3 prices." 4 earnings at all. So I think it went from -4 5 In your career you have seen the market had anticipated maybe 70 cents and 5 6 situations where that occurred, correct? 6 it went to two cents or something like that, A. I have. 7 7 but there were very poor earnings. 8 Q. Do you have any basis for claiming 8 Q. And obviously -- do you have any that what had occurred at Provident was an 9 9 understanding as to whether or not any of 10 intentional error made by dishonest managers? 10 those factors were known or could have been 11 A. No. 11 anticipated back in 1999? 12 Q. Page 25. Up at the top in the first 12 A. The fact that they reported 45 cents sentence that begins on that page, "Second, 13 13 would not have been anticipated. The fact the amount of the earnings variance grew in 14 14 that there was a 40 cent divergence could have 15 significance, year to year, and wiped out a 15 been anticipated. Because remember, we're 16 large percentage of reported earnings in the talking about loans in '97, '98, and '99. 16 17 latter years." 17 So we're not looking here at the 18 That deals with the March 5th, 2003 18 actual numbers in net income, but the 19 announcement, am I correct? 19 divergence could have been known. A. Yes. But you can look at, let's 20 20 Q. Do you recall that Provident went look at the charts and just see. You can see. 21 21 off gain on sale accounting? 22 If we look on page 20, we can see that the, 22 A. Yes. 23 here the variance is growing, and we talked 23 Q. In 2001 also? 24 about it, 2 cents, 4 cents, 23 cents, 31 24 MR. BRAUTIGAM: Object. I don't

25

believe it's accurate.

cents, 40 cents, 39 cents.

A. Correct.
Q. The last sentence in that section says, "Studies have shown that earnings restatements based on accounting irregularities, including revenue recognition problems, are typically accompanied by stock price declines in excess of 30 percent."

Do you see that?

A. Yes.

17

A. No.

A. No.

A. No.

Q. 2000?

Q. Or 2001.

Q. Did you do one for 1999?

I can tell you, I will offer,

looking at just the graph I have, that I would

A. I don't believe so.

Page 178 Page 180 1 Preston Preston 2 be surprised if there wasn't a very strong 2 decline in the price of Provident stock." relationship in any of these years, and I can 3 3 I believe that you believe that 4 show you here how. would have happened, but you didn't calculate 4 5 Except for company-specific 5 that. 6 deviation days, the relationship is quite 6 MR. BRAUTIGAM: Objection. remarkable. The R square on this in 2002 was 7 7. A. I didn't quantify it. over 50 percent. That's an extremely high 8 8 Q. Didn't quantify it. And you didn't 9 relationship. And the graph bears it out. So 9 quantify precisely how earnings would have I would expect the relationship to be very 10 been impacted in the first half of 1999 based 10 similar. 11 11 upon what was disclosed in the restatement. 12 Q. But you didn't do that study. 12 MR. BRAUTIGAM: Objection. 13 A. Haven't done it. 13 A. And I have assumed that that Q. In the middle of the page, page 27, 14 14 restatement was spread across the year. 15 "using these results I observed that on 15 Q. You have assumed that, 16 March 5, 2003, the day Provident announced it A. Yes. 16 17 was restating its financial results. 17 Q. And you don't know that to be the Provident's stock declined by approximately 20 18 18 fact. percent in excess of market or industry 19 19 A. No. But as I said, and I've said movement. This 20 percent one-day price 20 several times, that management, you know, the 20 21 decline was statistically significant at the expectation that the earnings would continue 21 99 percent level." 22 22 was in the market at that point and therefore 23 A. Yes. 23 it's, um, was a - and management met the 24 Q. Did you do an event study for 24 expectations. So I don't think that there's a 25 Provident stock after April 15, 2003? 25 question about whether it would have impacted Page 179 Page 181 Preston Preston 1 A. I think you asked me that before. I 2 2 it or not. It would have. know we looked at it. Yes. 3 3 Q. When you did your event study and 4 Q. It's not detailed in your report 4 looked at the results with respect to what 5 though. 5 happened on March 5, 2003, and reached your A. No. 6 6 conclusions about the impact on the Provident 7 Q. We've talked earlier about why you 7 price, what you were looking at was the impact 8 believed that if the earnings had been or if 8 on the Provident stock price of the cumulative 9 the restatement had been made or had been in 9 restatement number that was known as of that effect at the time of the merger why it would 10 10 day, correct? 11 have been material, correct? We talked about 11 A. Well, that's one of the things that your views on that. 12 12 would cause the impact, yes. A. Yes. 13 13 Q. We know that had the restatement 14 Q. Page 28, number 59. You talk about 14 occurred in 1999 that cumulative number would 15 your analysis of the walk-away price, am I 15 have been substantially lower than what was correct? 16 16 announced on March 5, 2003, don't we? 17 A. Right. 17 A. Well, we know that those same Q. On page 29 up at the top you state, 18 numbers, those same contracts would have been 18 19 "Assuming prior to close of the Merger, 19 in place. Just as they were still in place in Provident announced a restatement of earnings 20 20 2003, right? And yet they were going to

continue to have, those same contracts would

Provident stock going forward as shown in the

25

This isn't for March of 2003 or 2002. This is 2003 and going forward we are reducing our earnings.

Q. By 20 cents.

A. By 20 cents. The company's expectation is that the impact of that matter will be significantly less in 2004 and in future years. So of course it will be less. These are auto loans. Auto loans aren't for twenty years.

I would imagine the securitizations are either packaged by year. So we have got the three-year loans in one securitization or the four-year loans, or they're diversified, but most auto loans are three to six years. So of course if they are written in '97 through '99, the impact is going to be less.

Is it going to be less in '99 if you announce it and you have done it for six years? I don't think it's going to be a lot different than it was.

Q. Even if you're calculating it

Preston

impact is the same.

Q. Not if you get it right. Not if you find the error and fix it.

MR. BRAUTIGAM: Objection.

A. They found the error and fixed it in March of 2003.

Q. Correct?

A. Did the impact disappear? No. It continued through the end of 2003 and was expected to have less impact going forward because, voila! Auto loans only last a relatively short amount of time.

 Q. If there was an error in estimating income and expense, the error was detected in '99 and the estimates were revised, is it your testimony that the earnings would have continued to be off in those years after that?

MR. BRAUTIGAM: Objection.

A. Not the earnings, but the future estimate of earnings would change.

Q. So it's the forward looking projections.

A. Yes. So that you would -- at that point, any point in time where you caught

Page 183

Page 185

Preston

correctly?

A. Well, that's what they're doing now, isn't it? In 2003 they're starting to calculate it correctly, and it's still going to affect 2003 and future years, even though they were written back in '97 through '99.

Q. My point though is, if you look at the cumulative effect, I mean, you assessed on March 5, 2003 the impact on the price through your event study of the \$77 million

restatement amount that was first announced.

A. Correct.

MR. BRAUTIGAM: Objection, 77 million?

MR. BURKE: Whatever, \$70 million.

Q. Had the number been disclosed in 1999 -- excuse me. It would have been \$2.9 million for the years 1997, 1998 and less than \$11 million for 1999, correct?

MR. BRAUTIGAM: Objection.

A. But the future would have been different. See, the cumulative impact isn't just what's happened. It's what is going to happen in the future. So the cumulative

Preston

2 this, you would have corrected the past. But 3 you would have had to change and let the world 4 know that you had changed and that was going to affect the future as well. And it was 5 6 going to affect the future a large amount. 7

Q. I see what you're saying.

Page 29 at the bottom, "I believe that, at a minimum, it" -- and I believe it's the impact on the merger, "would have changed the Exchange Ratio and likely would have caused the OHSL shareholders to vote against the Merger with Provident."

What's the basis for your statement that it would likely would have caused the OHSL shareholders to vote against the merger? We talked about this a little bit before.

I take it you hadn't talked with any. OHSL shareholders or conducted any research into them as to what they would have done.

MR. BRAUTIGAM: Objection.

Q. Is that true?

A. That's true. We have gone over this for a large portion of today at this point. But we're talking about at this point so many

Page 188

Page 189

## Page 186 Preston 2 didn't you?

problems with this deal in terms of if the proper disclosures had been made. If we had Provident on top of, number one, you have got board members who don't want to vote for the

6 deal or don't think it's in the shareholders' 7 interest who resign, and they're doing it based on wrong numbers to begin with. 8

You had board members who weren't in 10 favor of the deal, but voted for it. Would they have voted for it to begin with if they had had the correct Provident numbers and known that Provident's future was going to look a whole lot different than what Provident had been telling people?

You put that together with the fact that Herron resigned because he didn't want this merger to go through, that Mr. Hanauer didn't believe it was in the best interests of the shareholders.

21 Given the closeness of this vote and 22 the convergence of all those things being disclosed, it is very, very difficult for me 23 to believe they wouldn't have gotten another 24 twenty-some thousand shares that changed the 3 A. Yes. 4 Q. Did you read the part where 5 Mr. Herron testified that when he read the

proxy he made no effort to contact anyone to 7 indicate that in fact his position was not 8 adequately disclosed?

A. I don't recall.

10 Q. Tell me about the mosaic theory. 11 It's a wonderful phrase. Is that your phrase 12 or is that --

A. Oh, no, it's a --

Q. OK.

A. It's a common finance literature thing. It's certainly -- I think it actually grows out of legal doctrine, but I'm not certain of the case from which it's taken.

But the idea is that information isn't possessed in isolation, that all of us look at the sum of things and therefore to say is one thing material and ignore the environment in which it is received would not be the correct way to do it.

I think actually this goes right to

Page 187

### **Preston**

way they voted.

Q. But that's not based upon any research.

A. Any math?

Q. No, any research into the specifics of the OHSL shareholder base.

A. No, it's looking at other shareholders and what other shareholders have done.

Q. And your conclusions as to Mr. Hanauer, Mr. Herron, we've already talked about those already today, have we not, in terms of what that's based upon?

A. Well, we've talked about the fact 16 that what Mr. Hanauer has testified to, we talked about the fact that he didn't, you know, as of the August 2nd meeting, he said that he just gave in. So we probably covered pretty much what...

Q. OK.

A. Over lunch I did look at an affidavit of Mr. Herron's, so that that merely supported what I already believed. That --Q. You did read Mr. Herron's testimony,

Preston

the heart of the SEC opinion on materiality and the fact that - and that's one of the reasons that one can't just say a rule of thumb on what number is material.

Q. How often in your experience do projections in one year remain unchanged for the entire period of those projections?

A. If you mean unchanged completely unchanged? That doesn't happen very often.

Q. Projections frequently get adjusted from year to year, period to period, do they not?

A. Sure.

Q. You wouldn't in reviewing any company expect projections made in 1999 to remain unchanged through 2003, would you?

A. It would be unusual.

MR. BURKE: I have no further questions.

**EXAMINATION BY** 21

Herron, marked for identification, this date.) EXAMINATION BY MR. BRAUTIGAM: Q. Good afternoon, Ms. Preston. As you know, my name is Michael G. Brautigam and I represent Walter Thiemann, Gary and Lisa Meier and a putative class of OHSL shareholders. Ms. Preston, I want to pick up with the question that Mr. Burke asked at the end of his examination. He asked if you would expect projections to remain unchanged from year to year going out for several years. I think you said no; is that	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	Preston  Q. And do you believe that your opinion in this case would assist the jury, the trier of fact, in understanding the purposes of proxy materials?  MR. BURKE: Continuing objection, leading.  A. Yes.  Q. Now, Ms. Preston, other than what is in your report do you have a shorthand version you can share with us today as to the function of proxy materials?  MR. BURKE: Objection, speculation, form.  A. Other than what's in my report, I don't know exactly the words I used in my report, but the proxy materials are there to inform shareholders, give them the best complete idea of the true condition of a

Q. With respect to the unanimous vote that's reflected in Defendant's Exhibit 1, the defendants have suggested at depositions and also in court papers that the five to nothing vote really was unanimous because no one voted against the merger.

What do you have to say about that? MR. BURKE: Objection, leading, argumentative, calls for speculation.

Q. About ten days apart, correct?

A. Correct.

Q. Would you please thumb through Defendant's Exhibit 1 and find the merger agreement which is included in the proxy materials.

MR. BURKE: As yesterday, Mr. Brautigam, I need to run to the airport to catch a flight. And given the nature of the testimony to date, I will lodge a continuing objection to leading,

his letter in the spirit of diplomacy, but he got on the telephone and he called every one of them and he didn't take the money that he could have made off of this deal.

I think it would be very hard for me to say that it was inappropriate.

Q. I think Mr. Herron picks up on that theme in the second paragraph, excuse me, in the second sentence, paragraph 12, which begins on page 2 but goes over to page 3.

"I do not believe that there was any other way that the OHSL defendants could have interpreted it." Meaning he's talking about his resignation letter and the fact that he was resigning in part in protest of the OHSL/Provident merger.

Do you agree with that sentence?

A. Yes, the fact that he was not that he had called them all, that he didn't take the money he was entitled to from the options, I can't imagine any other way it could have been interpreted.

Q. If you just flip to the first page for a moment, paragraph 2 talks about making 25

## Preston

2 limitations in your answer. Let me read it 3 anyway. 4

"Second, there is no dispute that Herron's departure from OHSL's Board was disclosed," with "emphasis in original."

Do you agree with that sentence? MR. HILLER: Objection.

## A. I haven't seen anyplace where it was disclosed.

Q. Ms. Preston, have you read the 11 report submitted by Dr. William Lutz? 12

A. Yes.

 Q. Is there anything that you disagree 14 15 with in the report?

A. No.

 Q. You generally agree with it. 18 correct?

A. Yes.

Q. Let's put the affidavit aside for the moment and talk about the proxy materials in general.

What's the difference between proxy materials and annual report?

A. An annual report is something that

Page 211

## Preston

this affidavit "in further support of Plaintiffs' Motion for Summary Judgment on Unanimity Issues." Do you see that?

## A. Yes.

Q. In paragraph 14 there's a quote that we've taken from the opposition to plaintiffs' motion for summary judgment of the OHSL and Provident defendants. And the quote reads as follows: "Herron admitted he never told his counsel of any objection to or protest of the merger, and never put it in the corporate minutes."

Based on what you've seen, read and understand in the case, do you agree with that statement that the OHSL and PFGI defendants put in a pleading?

MR. HILLER: Objection.

A. I haven't read the whole pleading and I -- based on this, it seems like people were on notice. I would have to read the whole pleading to have a full opinion on that.

Q. Let me direct your attention to paragraph 16. There's also a quote from the same brief, perhaps subject to the same

### Preston

the company does at the end of its fiscal year when it is required by the SEC to put out a report to its shareholders. It comes once a year and it is -- it's a disclosure of the past year's activities, including previous years' financial statements, a comparison of year-over-year status of the company.

Proxy materials, and I guess it depends on whether you're talking about a special proxy such as this is or annually there's a proxy which is the company puts out to vote on its auditors, various issues like that, but this special proxy is information that is put out to elicit the vote of the shareholders on the sale of the company. It's an entirely different situation.

 Q. Is it your understanding that this document is also a registration statement?

A. Yes.

21 Q. What is being registered?

A. In this case what is being 22 23 registered is the shares of Provident.

Q. Newly issued Provident stock, right?

A. Newly issued Provident stock.

24

25

A. Yes.

MR HILLER: Objection.

Q. Who does Defendant's Exhibit 1 come

Page 214 Page 216 Preston 1 Preston 2 Q. And that's because this transaction from? 3 was being paid for with Provident stock as the 3 A. It comes from OHSL. Q. OHSL? 4 currency, correct? 4 5 A. Correct. 5 A. Yes. 6 Q. So in that sense, Provident's 6 Q. Does it also come from Provident in 7 business, its prospects, its future earnings, some sense because it's a joint document? 7 were much more important than in a situation A. Oh, yes. Sure. 8 8 where Provident would be buying OHSL with 9 Q. Would you expect the respective 9 10 cash, correct? boards of OHSL and Provident to have read the 10 A. OHSL would have no future interest document and have understood it at least in 11 11 in Provident. So as long as they got the 12 12 broad strokes? cash, the deal was over for them. 13 13 A. It's been my experience that this is 14 Q. Does Defendant's Exhibit 1 contain 14 a cooperative document that is generally put financial information provided by Provident? together by the boards, by their lawyers with 15 15 the input from their investment bankers. 16 A. Yes. 16 I personally have been involved in 17 Q. And that financial information, 17 which I believe you'll find on pages 6 and 7, making presentations to boards of directors 18 18 goes back to 1994, correct? about the financial information that's 19 19 included in proxies. So I cannot imagine they A. Correct. 20 20 21 Q. And without getting into technical 21 would not have been important. 22 explanations about restatements and 22 Q. Ms. Preston, have you opined in any way or have you formed any conclusions with 23 materiality, is it fair to say that the 23 respect to whether or not the OHSL board information contained in the proxy materials 24 24 from Provident is simply wrong? 25 fulfilled its fiduciary duties to the OHSL Page 217 Page 215 Preston Preston 1 1 2 MR. HILLER: Objection. 2 shareholders? A. I think your fiduciary duty is to 3 3 put out a reliable document, and I don't think 4 Q. Is it fair to say that this wrong 4 information was relied upon by McDonald quite this is a reliable document. So they haven't 5 5 specifically in their fairness opinion? fulfilled it. 6 6 7 7 MR. HILLER: Objection. MR. HILLER: Objection. 8 Q. Ms. Preston, in one of your 8 A. Yes. footnotes you mentioned something that you 9 9 Q. Is it also fair to say that the expectation was that this would be sent to were concerned that Mr. Zoellner did not seem 10 10 OHSL's shareholders who would be able to rely to know that the OHSL directors had any 11 11 on the document in its entirety? 12 12 responsibility for the document. 13 MR. HILLER: Objection. 13 Why were you concerned about that? A. That's the whole purpose of the 14 A. Well, it spoke to an incredible lack 14 15 document. 15 of awareness of the responsibility of a Q. And we now know that their reliance director or - it was either lack of awareness 16 16 or the intentional obliviousness. I don't 17 on the document was misplaced because at 17 minimum it contained false financial 18 know. I don't know what. 18 information from Provident as well as material 19 But certainly, a director had -- is 19 a fiduciary for his shareholders. It's hard 20 misstatements, misrepresentation with respect 20 21 to unanimity and Herron's resignation among 21 for me to understand how you could think you other things, correct? 22 didn't have responsibility for it. 22

Q. Ms. Preston, let's talk about the

The defendants have suggested that

various hats that Mr. Hanauer wore.

23

24

case for a period of time, correct?

#### Page 218 Page 220 1 Preston Preston 2 Mr. Hanauer may have believed that the merger 2 A. Yes. 3 was not in the best interest of the 3 Q. And you know that both Keating, 4 shareholders and therefore voted for it as a Muething & Klekamp and Ernst & Young have been 4 5 director. But because there were no voting 5 dismissed based largely on statute of 6 agreements, he didn't believe it was in his limitations grounds. 6 7 personal best interest and therefore he voted 7 A. Yes, that's what you have his personal shares against it, which he was 8 8 represented to me. 9 free to do. 9 Q. Have you ever been involved in a 10 What would you say to that? 10 case where the law firm that is defending the 11 A. I would say that's not what 11 majority of the defendants in the case was Mr. Hanauer testified. Mr. Hanauer testified 12 12 responsible in part for a large percent of 13 that he didn't think it was in shareholders' 13 work on the merger itself? 14 best interest. And that the fact - and I 14 A. Not to my knowledge. 15 think the fact that he didn't think it was in 15 Q. Are you familiar with the phrase 16 shareholders' best interest, it was incumbent 16 "conflict of interest"? 17 upon him to make that known to the 17 A. Yes. 18 shareholders and incumbent on the company to 18 Q. Do you think that this situation 19 make it known. 19 might be a conflict of interest or a potential 20 In fact, I think the KMK lawyers 20 conflict of interest? 21 testified, several of the lawyers who worked 21 A. In my experience it would be a 22 on the transaction, testified that it was 22 reason to recuse oneself. 23 important that he make it known, and some of 23 Q. Ms. Preston, you've reviewed 24 the Provident directors testified it was 24 plaintiffs' consolidated amended complaint, 25 material that it be known. 25 correct? Page 219 Page 221 Preston 1 1 Preston 2 So he may have had different 2 A. I have. 3 opinions. It's hard though to understand how 3 Q. And you specifically reviewed the 4 one abrogates their fiduciary duty, but in any 4 questions and answers that were asked of KMK 5 case, at the very least he had to disclose 5 transactional attorneys that appear in 6 that. 6 paragraph 30 of the consolidated amended 7 7 Q. Why do you believe that Mr. Hanauer complaint, correct? 8 hadn't disclosed his opposition to the merger? 8 A. I did. 9 Why isn't he just like any other shareholder 9 Q. Do you interpret that testimony of who is free to vote however he feels like? 10 10 Mr. Weiss and Mr. Matthews respectively as 11 MR. HILLER: Objection. 11 being adverse or potentially adverse to 12 A. Well, Mr. Hanauer isn't any other 12 clients or a client, Mr. Hanauer, that KMK 13 shareholder. Mr. Hanauer is the CEO of the 13 currently represents? 14 company. He's the biggest shareholder. And 14 A. This really goes beyond the scope of by the way, the proxy materials say there was 15 15 my testimony, and it's not something that I unanimity on the board and there wasn't 16 16 really formed an opinion on. 17 unanimity. 17 Q. But it is fair to say that you 18 Q. Ms. Preston, you know that the law 18 generally agree with KMK transactional 19 firm of Keating, Muething & Klekamp was a 19 attorneys that if Mr. Hanauer opposed the 20 defendant in this case for a period of time, 20 merger, that he had a duty to disclose that, 21 correct? 21 correct? 22 A. Yes. 22 A. Yes. 23 Q. You also known that the accounting 23 MR. HILLER: Objection. 24 firm of Ernst & Young was a defendant in this 24 MR. BRAUTIGAM: Thank you very much

for your time and I have no further
